## ASHFORD PARK NURSERIES

### ATLANTA, GEORGIA

City Office  
802 Grant Building  
Phone Ivy 4631

Nursery Office  
Ashford Park, Peachtree Road  
Phone Hemlock 333

**NAMES OF PLANTS:** The scientific names used in this list are those recently agreed upon by the Nomenclature Committee of the American Association of Nurserymen and other organizations interested in horticulture.

**PRICES:** Prices here listed include packing and delivery to our shipping station Chamblee, Ga., or delivery to Atlanta where amount of order warrants. Prices do not apply to extra specimens.

**GUARANTEE:** We will replace or refund the price paid for any plants that prove untrue to name, but we are not responsible beyond the purchase price. Our liability for safe or prompt delivery ceases when stock is delivered to transportation companies, no guarantee is given, or liability assumed for life of plants after leaving our hands in good order.

**LANDSCAPE DEPARTMENT:** We maintain a competent landscape department. Consultation and advice is free to our customers. A nominal charge is made when it is necessary to draw plans.

**OTHER VARIETIES AND SIZES:** This list includes only what we grow in quantity. We have many other varieties, as well as large specimen plants of the kinds here listed. We invite correspondence on your needs.

**VISITORS:** To those who can do so, a visit to the nurseries is a very satisfactory way to select stock. Take Camp Gordon trolley car, get off at Ashford Park Station, or motor out Peachtree Road. We are not open for business on Sundays.

\*Can be furnished in large sizes. Prices on application.

§Special prices on large quantities.

†Special prices on collected plants in large quantities.

### ORNAMENTAL TREES

With a few exceptions these drop their leaves in winter. The value and beauty of a shade tree needs no explanation.

	SIZE IN FEET					
	3-4	4-6	6-8	8-10	10-12	12-14
<i>Acer dasycarpum</i> . Silver Maple. A large handsome tree of rapid growth in good soil.....			.75	1.00	1.50	2.50
<i>Acer dasycarpum</i> Wierri. Cut-leaved Weeping Maple. Gracefully weeping branches and finely divided leaves .....					2.50	3.50
* <i>Acer saccharum</i> . Sugar Maple. A large symmetrical tree for the lawn. Brilliant red to yellow autumn colors .....			1.25	2.00	3.00	5.00
* <i>Acer platanoides</i> . Norway Maple. Like the sugar maple, but withstands adverse conditions better. Darker green .....			1.25	2.00	3.00	5.00
<i>Acer platanoides</i> Schwedleri. Purple-leaved Norway Maple. A variety of the Norway with purple leaves in spring .....		1.00	1.50	2.50	4.00	
<i>Aesculus Hippocastanum</i> . Horse Chestnut Panicles of white flowers in early summer. Needs good soil..			1.50	2.00	3.00	
<i>Albizzia Julibrissin</i> . (Acacia nenu). Mimosa tree. Large feathery leaves. Pink thistle flowers in summer .....			1.50	2.00	3.00	
<i>Amerlanchier canadensis</i> . Service Berry. Small woodland tree. White flowers in spring. Sweet blue or red berries in May .....		1.25	2.00			
<i>Aralia spinosa</i> . Hercules' Club. Small tree or shrub. Odd tropical appearance. Large finely divided leaves. White flowers .....	.75	1.00				
<i>Amygdalus persica</i> . fl. pl. Flowering Peach. Numerous double flowers give a magnificent color display in spring. Colors, white, pink or red. All .....	.75	1.00				
<i>Betula populifolia</i> . American White Birch. White bark. A striking and delicate small tree.....			1.25	2.00	3.00	5.00
<i>Betula alba pendula laciniosa</i> . Weeping White Birch. White bark, gracefully drooping branches, cut leaves .....			2.00	3.00	5.00	7.50
<i>Betula alba fastigiata</i> . Fastigiata White Birch. Upright like the Lombardy Poplar. White bark. Very rare and unusual .....			2.50	4.00	6.00	
<i>Castanea japonica</i> . Japanese Chestnut. A small tree. Very large nuts. Not subject to disease .....	1.00	1.50				
<i>Cedrella sinensis</i> . Chinese Cedrella. Large pinnate leaves like the sumac and ailanthus. Rapid growth .....				2.00	3.00	
<i>Celtis Mississippiensis</i> . Southern Hackberry. Similar to the native elm. Highly recommended as a street tree .....		.75	1.25			
<i>Cercis canadensis</i> . Red Bud. Judas tree. Small woodland tree. Branches closely studded with magenta pink blossoms in spring.....		.75	1.50	2.50		
<i>Cladrastris lutea</i> . Yellow Wood. Handsome lawn tree. Loose racemes of white flowers like the wistaria....	.75	1.00	2.00	3.00	5.00	
<i>Cornus florida</i> . White Flowering Dogwood. Taking from the woods only despoils the woods and mars the lawn with a dead tree.....	.75	1.25	2.00			
<i>Cornus florida rubra</i> . Pink Flowering Dogwood. The popular pink flowered variety .....	2.00	3.00				
<i>Fagus grandifolia</i> . Beech. A large handsome tree for large lawns and good soil. Smooth grey bark. Balled .....		3.00	5.00			
<i>Fagus sylvatica purpurea</i> . Purple Beech. Same as above but with purple leaves. Like above dug with ball of earth .....		3.00				
<i>Fraxinus americana</i> . American White Ash. A good fairly rapid growing tree for the lawn.....		.75	1.25	2.00	3.00	
<i>Ginkgo biloba</i> . Maiden Hair Tree. An odd tree. Sacred in China. Leaves shaped like those of the maiden-hair fern .....		1.25				
<i>Gymnocladus canadensis</i> . Kentucky Coffee Tree. Large pinnate leaves. Flowers, white, in loose racemes....		1.00	2.00			
<i>Hovenia dulcis</i> . Honey Tree. Bright green foliage. White flowers in early summer.....		1.50	2.00			

	SIZE IN FEET					
	3-4	4-6	6-8	8-10	10-12	12-14
<i>Juglans nigra</i> . Black Walnut. Valuable for its nuts, its timber, and its beauty .....	1.00	1.50	2.50			
<i>Juglans Sieboldi</i> . A handsome shade tree with edible nuts. A more rapid grower than the black walnut .....	1.00	1.50	2.50			
<i>Koelreuteria paniculata</i> . Rain Tree. A small tree with yellow flowers in summer. ....		1.25	1.50	2.00		
* <i>Liquidambar styraciflua</i> . Sweet Gum. Star shaped leaves. Varied and brilliant autumn colors. Fine lawn tree .....				1.50	2.50	3.50
<i>Liriodendron tulipifera</i> . Tulip Tree. Wrongly called poplar. Handsome native tree of very rapid growth .....			1.00	1.50	2.50	3.50
<i>Magnolia acuminata</i> . ..Cucumber Tree. Similar to the evergreen magnolia but drops its leaves in winter. Grows faster .....		1.50	2.00	3.00		
<i>Magnolia tripetala</i> Umbrella Tree. Has the largest leaves of any tree hardy here .....		1.50	2.00	3.00		
<i>Melia azedarach</i> . China Berry. Useful for its quick growth in poor soil .....		.75	1.25	2.00		
<i>Melia azedarach umbelliformis</i> . Umbrella China Berry. The well known umbrella shaped tree .....		1.00	1.50	3.00		
<i>Morus alba pendula</i> . Tea's Weeping Mulberry. Weeping branches budded on a tall stem and reaching the ground. 2-year heads .....			2.00			
<i>Corydendron arboreum</i> . Sour Wood. Brilliant scarlet coloring in early autumn. A shrub in poor soil .....	1.00	1.50				
<i>Paulownia tomentosa</i> . Empress Tree. Extremely rapid growth even in poor soil. Magnificent purple blooms in Spring .....			1.00	2.00		
<i>Platanus orientalis</i> . Oriental Plane. Recommended as best street tree. White bark with brown plates peeling off .....	1.00	1.50	2.25			
<i>Populus deltoides caroliniana</i> . Carolina Poplar. Tall upright tree of extremely rapid growth .....		.75	1.00	1.50		
<i>Populus nigra italica</i> . Lombardy Poplar. The well known narrow columnar tree. For Screens, narrow streets and accents .....		.75	1.00	1.50	2.50	
<i>Populus Maximowiczii</i> . Chinese Poplar. A new variety similar to the Lombardy .....	1.00	1.50	2.25			
<i>Prunus pissardi</i> . Purple Leaved Plum. Palest pink blossoms in early spring. Purple leaves all summer .....	.75	1.00				
<i>Prunus subhirtella pendula</i> . Weeping Cherry. Gracefully weeping branches on a tall stem. Pale pink flowers in early spring, 2-year heads .....		3.50				
<i>Malus angustifolia</i> . Southern Crab. The native crab apple. Covered with fragrant pink blossoms in late spring .....	.75	1.50				
<i>Malus ioensis Eechteli</i> . Eechtel's Flowering Crab. Covered in spring with double fragrant pink and white flowers like roses .....	1.00	2.00				
* <i>Quercus nigra</i> . Water Oak. Not a slow grower, but a rapid one. The most popular shade tree and deservedly so .....			1.00	1.50	2.50	4.00
<i>Quercus palustris</i> . Pin Oak. Resembles the water oak in growth. The leaves are deeply scalloped and turn crimson in fall .....			1.25	1.75	3.00	5.00
<i>Quercus prinus</i> . Chestnut Oak. A magnificent native oak. Fairly rapid growth. Brilliant autumn colors .....			1.25	1.75	3.00	5.00
<i>Quercus sempervirens</i> . Live oak. The famous evergreen oak of the South. Hardy but not entirely evergreen at Atlanta .....			2.50	4.00	7.50	
<i>Robinia Pseudacacia</i> . Black Locust. Pinnate leaves. Racemes of white flowers like the wistaria. Grows in poor soil .....		.75	1.00	1.50		
<i>Salix babylonica</i> . Weeping Willow. The largest and most graceful of all the weeping trees .....		.75	1.50			
<i>Sterculia platanifolia</i> . Japanese Parasol Tree. Thick green branches. Odd and interesting, but not queer .....			4.00	6.00		
<i>Tilia platyphyllos</i> . European Linden. Makes a handsome symmetrical tree in good soil. Better than native linden .....		1.25	2.00	3.00		
<i>Ulmus Americana</i> . White Elm. Tall and arching. The best form for a shade tree. Larger and better than the native red elm .....		1.00	1.50	2.00	3.00	

## DECIDUOUS SHRUBS

These are shrubs that drop their leaves in winter. Most of them have showy flowers in the spring or summer or bright colored berries in the fall or winter.

Those marked "shade" will grow in either sun or partial shade.

	SIZE IN FEET				
	1 1/4-2	2-3	3-4	4-5	5-6
<i>Acer japonicum</i> . Japanese Maple. The richest and prettiest of specimen shrubs. Leaves palmately divided. Shade .....		2.00	3.00	5.00	
* <i>atropurpureum</i> . Leaves bright red .....		3.00	5.00		
* <i>dissectum purpureum</i> . Leaves bright red and finely divided .....		3.00	5.00		
* <i>roseum marginatum</i> . Leaves marked with rose .....			3.00	5.00	
* <i>aurum</i> . Leaves yellow green .....					
<i>Amygdalus triloba</i> . Flowering Almond. Covered with double white or pink flowers in spring .....			.75	1.00	
<i>Aesculus parviflora</i> . Dwarf Horsechestnut. White flowers in tall spikes. Shade .....		.75	1.00		
* <i>Aronia arbutifolia</i> . Winter Choke Berry. Bright red berries all winter. Shade. Medium size .....			.50	.75	1.00
* <i>Azalea nudiflora</i> . Wild azalea. Fills our woods with its varied brilliant colors in late spring. Shade only .....		.50	.75		
* <i>Azalea lutea</i> . Flame Azalea. Like the above. Flame color .....		.75			
<i>Benzoin aestivale</i> . Spice Bush. Native shrub. Yellow flowers in early spring. Shade .....		.50	.75	1.00	
<i>Berberis vulgaris</i> . Common Barberry. Medium size arching shrub. Yellow flowers in spring. Red berries in winter. Shade .....					
<i>Berberis vulgaris purpurea</i> . Purple-leaved Barberry. Same, but with purple leaves .....			.75	1.00	
* <i>Berberis Thunbergii</i> . Japanese Barberry. Low dense shrub. Flaming autumn colors. Red berries in winter. Used for low hedges .....		.50	.75		

	1½-2	2-3	3-4	4-5	5-6
	SIZE IN FEET				
<b>Buddlea Lindleyana.</b> Lindley's Buddlea. Long arching racemes of purple flowers all summer. Rapid growth			.50	.75	1.00
<b>Buddlea Davidii Veitchiana.</b> Butterfly Shrub. Large spikes of fragrant lilac flowers, all summer. Rapid growth. Excellent for cut flowers. Attracts the butterflies		.50	.60	.75	1.00
<b>Callicarpa purpurea.</b> Purple Berry. Clusters of purple berries in the axil of each leaf. Very striking and pretty	.50	.60	.75		
† <b>Calycanthus floridus.</b> Sweet Shrub. Well known native shrub. Fragrant maroon colored flowers. Shade		.50	.75	1.00	
<b>Caryopteris incana.</b> Verbenna Shrub. A small shrub with bright blue flowers in September	.50	.75			
<b>Ceanothus Gloire de Versailles.</b> Blue Ceanothus. Panicles of soft blue flowers all summer				1.25	1.75
<b>Cercis chinensis.</b> Dwarf Red Bud. Pink flowers like the native Judas tree. Shade		.75	1.00	1.50	
<b>Chionanthus virginica.</b> White Fringe. Large shrub or small tree with fringe like white flowers. Shade			75	1.00	1.50
<b>Chilopsis linearis.</b> Flowering Willow. Foliage like a willow. Pinkish flowers in summer					1.50
§ <b>Citrus trifoliata.</b> Trifoliate Orange. Bears attractive but unedible oranges in the fall. Orange blossoms in spring. Thorny. Makes an impenetrable hedge		.50	.75	1.00	
<b>Clethra alnifolia.</b> Sweet Pepper Bush. Small bush for either wet, dry, sunny or shady places. White flowers in summer	.50	.75	1.00		
<b>Cornus alternifolia.</b> Alternate-leaved Dogwood. Does not resemble the "Flowering Dogwood." A woodland native shrub			.75	1.00	1.25
<b>Cornus alba Siberica.</b> Red-twigged Dogwood. White flowers in early summer. White berries in fall. Bright scarlet bark in winter	.50	.60	.75		
<b>Corylus maxima purpurea.</b> Purple-leaved Hazel. Purple leaves. Does well in shade		.75	1.00		
<b>Crataegus crus-galli.</b> Cock Spur Thorn. One of the best of the native thorns. White flowers. Red fruits. Shining green leaves		.75	1.00	1.50	2.00
<b>Crataegus oxyacantha.</b> English Hawthorne. Divided leaves. Showier flowers than any native hawthorne		.75	1.00		
<b>Crataegus.</b> Mixed native. A collection of some of the best native hawthornes. White Flowers. Red fruits		.75	1.00	1.50	
<b>Cydonia Japonica.</b> Flowering Quince. Flaming vermillion red flowers in early spring and late winter	.50	.60	.75		
*§ <b>Deutzia crenata fl. pl.</b> Tall Deutzia. An old-fashioned garden shrub. Double bell shaped white flowers in early summer. Shade	.50	.60	.75	1.00	
*§ <b>Deutzia crenata fl. pl. rosea.</b> Pink Tall. Deutzia. Like above, but outer petals crimson giving pink effect to shrub.		.50	.60	.75	1.00
<b>Deutzia Lemoniel.</b> Lemoine's Deutzia. Dwarf, but erect shrub. White flowers in late spring. Best in shade		.50	.60	.75	1.00
<b>Deutzia gracilis.</b> Dwarf Deutzia. Dwarf arching shrub white flowers in late spring. Best in shade.	.50	.75	1.00		
<b>Elaeagnus longipes.</b> Japan Oleaster. Dark red edible berries. Grows well in poor soil		.75	1.00		
<b>Euonymus americanus.</b> Strawberry Bush. Tall shrub, green branches. Fruit warty, deep rose, opening to show scarlet seeds					1.00
§ <b>Exochorda grandiflora.</b> Pearl Bush. Large quick growing shrub with beautiful pure white flowers in mid spring			.75	1.00	
§ <b>Forsythia viridissima.</b> Golden Bell. Bright yellow bell shaped flowers in early spring. Medium growth. Shade	.50	.60	.75	1.00	
<b>Forsythia Fortunei.</b> Golden Bell. Same flowers. A larger shrub. Best in shade	.50	.75	1.00		
<b>Halesia tetraptera.</b> Silver Bell. White bell like flowers in spring. Shade	.50	.75	1.00	1.50	
<b>Hibiscus syriacus.</b> Althea. Well known old-fashioned garden shrub. Blooms all summer in the following colors: Single: Pure white, Magenta Purple. Double: Pure White, Magenta, Purple, white splashed pink				1.00	1.50
§ <b>Hydrangea paniculata grandiflora.</b> Hardy Hydrangea. Famous for its enormous heads of white flowers in late summer	.50	.60	.75	1.00	
<b>Hydrangea arborescens sterilis.</b> Hills of snow. Low. Semi-perennial. Balls of white flowers in mid summer	.60	.75	1.00		
<b>Hydrangea quercifolia.</b> Oak leaved hydrangea. Oak like leaves. Artistic cluster of white flowers in mid summer	.50	.75			
<b>Hypericum prolificum.</b> Low semi-perennial. Yellow flowers in summer	.50	.75	1.00		
<b>Hypericum macerianum.</b> Gold Flower. About one foot high. Flowers resemble single yellow roses all summer. 2-yr. 50c; 3-yr. 75c.	.50	.75			
<b>Ilex verticillata.</b> Deciduous Holly. Red berries in winter like the evergreen holly but not evergreen	.50	.75	1.00		
<b>Jasmine nudiflora.</b> January Jasmine. Yellow flowers in late winter. Branches green in winter. Low vine like	.50	.75			
<b>Kerria Japonica fl. pl.</b> Yellow Kerria. A mass of deep golden yellow double flowers in late spring. Twigs green in winter		.60	.75	1.00	
<b>Lagerstroemia indica.</b> Crape Myrtle. The most beautiful and characteristic flower of southern gardens. Flowers all summer. We can furnish the following colors:					
Crimson (Color of American Beauty Rose)		.75	1.00	1.50	
*White		.75	1.00	1.50	
*Light pink color like Dorothy Perkins Rose.			.75	1.00	1.25
Deep Pink. The brightest color and most vigorous grower			.75	1.00	1.25
Carmine Pink. Slightly darker than above		.75	1.00	1.50	
*Magenta			1.00	1.50	

	SIZE IN FEET				
	1½-2	2-3	3-4	4-5	5-6
*Purple .....			.75	1.00	1.25
*Light orchid lavender .....		.75	1.00	1.50	2.00
*Lespedeza japonica. Bush Clover. A half bushy clover. White flowers in summer. Poor soil. Quick growth .....		.50	.75		
Ligustrum ovalifolium Variegata. Golden California Privet. Leaves marked golden yellow.....		.50	.75	1.00	1.50
Ligustrum ibota Regelianum. Regel's Privet. Low and spreading. Attractive white flowers in early summer. Shade .....	.50	.75			
*Lonicera fragrantissima. Fragrant Honeysuckle. Fragrant flowers in winter and early spring.....		.50	.75	1.00	
*Lonicera Morrowi. Japanes Bush Honeysuckle. Pale yellow flowers in early spring. Red berries in summer .....		.50	.75	1.00	
Lonicera tartarica. Tartarian Honeysuckle. White or pink flowers red or yellow berries.....		.60	.75	1.00	
Magnolia stellata. Hall's Star Magnolia. A dwarf with large star shaped white flowers in early spring .....	2.00	3.00			
*Magnolia S. Langear. Pink Chinese Magnolia. Pink and white tulip shaped flowers in mid spring .....		.75			
*Magnolia Soulangiana nigra. Purple Chinese Magnolia. Same but with flowers dark purple .....				3.50	5.00
Meratia praecox. Oriental Sweet Shrub. Fragrant yellow flowers in winter .....		.75	1.00		
Opulaster opulifolius aureus. Nine Bark. Like Spiraea Van Houttei, but coarser. Yellow green leaves .....		.50	.75	1.00	
*Philadelphus grandiflorus. Syringa Old Fashioned garden shrub. White flowers in early summer. Shade .....		.50	.60	.75	1.00
Philadelphus Lemoinei. Dwarf Syringa. Includes several dwarf fragrant vars. Grow in shade.....	.50	.75	1.30		
Punica granatum fl. pl. Flowering Pomegranate. Attractive double flowers all summer. Vermillion or pink and white .....	.50	.75	1.00		
Rhodotepus kerrioides. White Kerria. White flowers like the syringa in mid spring. Black berries. Shade .....		.60	.75		
Rhus copallina. Shining sumac. Shining green leaves. Yellow flowers. Red fruits. Stands poor soil .....		.50	.75		
Rhus glabra. Sumac. Large pinnate leaves. Red fruits in winter. Grows rapidly in poor soil.....		.50	.75	1.00	
Rhus aromatica. Fragrant Sumac. Low spreading. Yellow flowers. Red berries. Red autumn colors. Shade .....	.50	.75	1.00		
Rhus coliana. Smoke Bush. Large Shrub. Flowers in delicate mist like pannicles resembling smoke .....			.75	1.00	
Rosa rugosa. Rugosa Rose. A vigorous low spreading rose. Flowers single, magenta or white. Summer .....	.50	.75			
Rubus alpinus. Moss Locust. Pink flowers like the Ribes form. Grows in poor soil .....		.70	.60		
Spiraea alba. Meadow Sweet. Upright medium size shrub. White flowers in terminal panicles in early summer .....	.50	.60	.75		
Spiraea Ellardii. Ellard's Spiraea. Similar, but with pink flowers .....	.50	.60	.75		
Spiraea Douglasii. Douglas' Spiraea. Like Ellardii, not as hard with better foliage .....		.75	1.00		
Spiraea Donaldia Anthony Watereri. Anthony Watereri's Spiraea. Low dwarf. Crimson flowers in late summer and sparingly to frost.....	.50	.75			
Spiraea prunifolia fl. pl. Dwarf white spiraea. Like the above but with white flowers .....	.50	.75			
Spiraea Thunbergii. Snow Garland. A mass of white flowers in early spring. Narrow delicate light green leaves. Dwarf .....	.50	.75			
Spiraea arguta. Snow Garland. Like the above but larger .....	.50	.75			
Spiraea prunifolia fl. pl. Bridal Wreath. Upright medium size. Double white flowers all along the stem. Mid spring .....	.60	.75	1.00		
*Spiraea Van Houttei. Van Houttei's Spiraea. Medium size gracefully arching shrub. Round clusters of white flowers in late spring.....	.50	.60	.75	1.00	
Spiraea Reevesiana fl. pl. Reeve's Spiraea. Like the above. Flowers double. Plant rounded.....	.60	.75	1.00	1.50	
*Styrax japonica. Japanese Styrax. Large shrub or small tree. White bell shaped flowers in early summer. Shade .....	.50	.75	1.00	1.50	
Symphoricarpos racemosus. Snowberry. White berries in autumn. Medium size. Best in shade .....	.50	.75			
Symphoricarpos vulgaris. Indian Currant. Small spreading shrub. Crimson berries in fall and winter .....	.50	.75			
Syringa vulgaris. Lilac Beautiful panicles of white or lilac flowers in late spring.....		.50	.75	1.00	
Named double and single varieties.....		.75	1.00		
Syringa Persica. Persian Lilac. Similar to the common lilac. Leaves smaller .....		.75	1.00		
Syringa pekinensis. Large panicles of white flowers in early summer. Large shrub or small tree.....		.75	1.00	1.50	
Tamarix africana. Tamarix. Open shrub. Fine almost hair-like foliage. Magenta pink flowers.....		.60	.75	1.00	
Viburnum prunifolium. Black Haw. Flat clusters of white flowers in late spring.....		.60	.75	1.00	
Viburnum cassinoides. Withe rod. Flat clusters of white flowers in early summer. Berries turn pink then blue. Likes wet.....	.60	.75	1.00	1.50	
Viburnum dentatum. Arrow Wood. Rich green foliage. Flat clusters of white flowers. Blue berries. Shade .....	.60	.75	1.00		
Viburnum opulus. High-bush Cranberry. Red berries in winter. Flowers in outer edge of cluster with large petals. Shade .....	.60	.75			
Viburnum opulus sterilis. Snow Ball. All flowers in cluster showy making round white ball. Likes shade. No berries .....	.60	.75	1.00		
Viburnum tomentosum plicatum. Japanese Snowball. Flower clusters more regular than common .....	.75	1.00			
Vitex Agnus-castus. Chaste tree. Large shrub. Spikes of bright blue flowers in mid summer.....	.50	.75	1.00		

	SIZE IN FEET				
	1½-2	2-3	3-4	4-5	5-6
*Weigelia roses. Pink Weigelia, one of the best large lawn shrubs. Shade. Flowers deep rose to white in late spring.....		.50	.60	.75	1.00
Weigelia candida. White Weigelia. White flowers		.60	.75	1.00	
Weigelia amabilis. Flowers uniformly deep pink.....		.60	.75	1.00	
Weigelia Eva Rathke. Crimson Weigelia. Flowers crimson in early summer. Sometimes repeating.					
Branches arching .....	.60	.75	1.00	1.50	2.00
Weigelia variegata. Variegated Weigelia. Leaves margined yellow. Flowers rose colored .....		.60	.75	1.00	

### BROAD-LEAVED EVERGREEN

These are shrubs or small trees that hold their leaves all winter. Many of them have showy flowers or berries, but they are mainly used to give masses of evergreen foliage about porches and foundations of houses and other situations where winter as well as summer effect is desired.

Most of them will grow in partial shade.

Except where mentioned prices include digging with a ball of earth and wrapping in burlap.

	SIZE IN FEET					
	1-1½	1½-2	2-2½	2½-3	3-4	4-5
Abelia grandiflora. Abelia. Blooms all summer. Holds its leaves all winter. Flowers white. Leaves reddish in winter. Best shrub to replace annual bedding plants around porches, etc. ....		1.00	1.25	1.50	1.75	
Aucuba Japonica. Japanese Laurel. Small shrub. Rich green leaves. Red berries on females. Best in shade .....	2.00	3.00				
Aucuba Japonica aurea maculata. Gold Dust Plant. A variety of above with golden yellow flecks on leaves .....	2.00	3.00				
Azalea amoena. Japanese Azalea. Small shrub covered with magenta flowers in late spring. Very slow growth .....	1.50	3.00				
Azalea Kinkedgira. Japanese azalea. A variety of the above with carmine flowers. A better color, but less vigorous .....	1.50	3.00				
Azalea indica. Varieties of this plant are sold by the florist at Easter time. Hardy here in sheltered positions .....	1.50	3.00				
*Buxus sempervirens. Boxwood. The soul of the boxes, garden vases, etc. Specimens: Small bushy plants 4-5 \$12.50 per 100; 6-8 .50c each; \$ 10 40c; 10-12 75c	1.50	2.50	1.50	3.00	4.50	
Calluna virginica. Scotch Heather. The heather of literature. Resembles a spreading juniper. White or pink flowers. 2-yr. 50c; 3-yr. 75c.						
Cotoneaster Simonsi. Tall Cotoneaster. Open Shrub. Small leaves. White flowers. Red berries.....		75	1.00			
Cotoneaster horizontalis. Trailing Cotoneaster. Low spreading shrub. White flowers. Red berries.....	.75	1.00				
Cytisus scoparius. Scotch Broom. Yellow flowers in early summer. Leaves not persistent, but brown like branches green in winter .....				.75	1.00	
Elaeagnus pungens. Evergreen Oleaster. Outer side of leaves silvery with brown scales. Growth rapid. Red edible fruit .....			2.00	2.50	3.00	
*Elaeagnus pungens relaxa. Sends out long pendulous leafless shoots which branch and bear leaves next year. Will climb .....					2.00	3.00
Elaeagnus sura maculata, aurea variegata, pungens variegata. Variegates with leaves marked yellow.....		1.00	2.50	3.00		
Eriobourne japonica. Loquat. Small tree. Hardy in sheltered places at Atlanta. Does not fruit here. 3-yr. \$1.00						
Eucynomus japonicus. Eucynomus. Well known old fashioned evergreen. Orange colored fruits in winter .....	1.00	1.50	2.00	2.50		
Eucynomus jap. aurea variegatus. Golden Eucynomus. Golden yellow marks on leaves.....	1.50	2.00	2.50			
Eucynomus jap. argenteo variegatus. Silver Eucynomus. Leaves edged with white .....	1.50	2.00	2.50			
Eucynomus pulchellus. Dwarf Eucynomus. A tiny dwarf resembling boxwood. Shining green leaves 2-yr. 50c, 3-yr. 75c.						
Eucynomus Britzensis. Semi vine. Many orange colored fruits in fall .....	1.00	1.50	2.00	2.50		
Gardenia florida. Cape Jasmine. Well known in southern gardens for its fragrant flowers. Hardy in sheltered places .....	.75	1.50	2.00	3.00		
Ilex glabra. Ink Berry. Low bush tending to form a thicket. Black berries. For naturalistic work....	1.00	1.50	2.00	3.00		
Ilex opaca. American Holly. Well known native tree with red berries and spiny leaves. Nursery grown trees live .....	1.00	1.25	1.75	3.00	4.00	
Ilex vomitoria. Yaupon. A shrub. Small green leaves. Red berries .....	1.00	1.50	2.00	3.00		
Illicium anisatum. Anise Tree. Resembles English Laurel. Leaves have anise like fragrance when broken .....		1.50	2.00	3.00	4.00	
Kalmia latifolia. Mountain Laurel. Beautiful woodland shrub. Pinkish white flowers in early summer. Needs woodland conditions .....	1.00	2.00				
*Lauro-cerasus officinalis. English Laurel. Shrub or small tree. Large rich green leaves. One of best for evergreen foliage .....	1.00	1.50	2.00	2.50	3.50	5.00
Lauro-cerasus caroliniana. Carolina Cherry. Southern Mock Orange. An evergreen wild cherry. Rapid growth .....	1.00	1.25	1.50	2.00	3.00	
*Ligustrum sinense. (amurense) Evergreen Amoor River Privet. Makes a handsome shrub if untrimmed. White flowers. Blue berries in winter. Good for screens. Half Evergreen. Plants not balled .....				.50	.75	
Ligustrum buxifolia. Box-leaved privet. Our own introduction. Seeding from the Amoor River Privet. Leaves smaller, darker, closer together. Plant more dense. Better for topiary work. Plants not balled .....				.60	.75	
Ligustrum buxifolia. Trimmed into cone shapes.....	1.50	2.00	3.00	4.00		

	—SIZE IN FEET—					
	1-1½	1½-2	2-2½	2½-3	3-4	4-5
<i>Ligustrum buxifolia</i> . Trimmed to Dome shapes, or half globes .....	1.50	2.25	3.00	4.00		
<i>Ligustrum buxifolia</i> . Trimmed to "standards." A round ball on a tall stem like "bay trees" .....					4.00	
* <i>Ligustrum japonicum</i> . Japanese Privet. Rapid growing large shrub. Shining green leaves. White flowers. Blue berries .....					1.00	1.75
<i>Ligustrum japonicum excelsum superbum</i> . Leaves margined and marked light yellow .....			1.50	2.00	3.00	4.00
<i>Ligustrum japonicum marginatum aureum</i> . Leaves at first margined and marked golden yellow, becoming yellow green .....			1.50	2.00	3.00	4.00
<i>Ligustrum lucidum</i> and <i>L. nepalense</i> . Dwarf Japanese privet. The same plant is sold under both names. The best shrub for evergreen foliage. Moderate growth. Shade or sun. Rich green foliage and blue berries in winter .....		1.50	2.00	3.00	4.00	
<i>Ligustrum lucidum macrophyllum</i> . A variety of the above with large very dark rich green leaves. Slow growth .....	1.50	2.50	3.50			
* <i>Magnolia grandiflora</i> . Southern Evergreen Magnolia. The pride and glory of the South. Plant on large lawns and do not trim up. 2-yr. \$1.00 .....					2.00	3.50
<i>Mahonia aquifolia</i> . Holly-leaved Mahonia. Leaves divided into holly like leaflets. Leaves red in winter. Yellow flowers in spring .....		1.00	1.50	2.50		
<i>Mahonia japonica</i> . Japanese Mahonia. Leaves green in winter and stiff. Best in shade. Yellow flowers. Blue berries .....	1.00	1.50				
<i>Michella fuscata</i> . Banana Shrub. Famous in southern gardens for the banana like fragrance of its flowers .....	1.50	2.00	3.00			
<i>Osmanthus aquifolium</i> . Holly-leaved Tea Olive. Large shrub or small tree. Leaves like the holly. White flowers in fall .....	1.00	1.50	2.00	3.00	4.00	
<i>Osmanthus fragans</i> . Tea or fragrant Olive. Popular in the garden for the very fragrant flowers in the fall .....	1.25	2.00	3.00			
<i>Osmanthus aquifolium Fortunei</i> . A variety with larger and more regular leaves .....	1.50	2.00	3.00			
<i>Pachysandra terminalis</i> . Japanese Spurge. Spreading. About six inches high. Edging or ground cover in shade .....		.50				
<i>Photinia serrulata</i> . Evergreen Photinia. Small Tree. Young leaves reddish. White flowers in large panicles. Red berries .....			1.50	2.00	3.00	5.00
* <i>Pyracantha coccineum Lalandi</i> . Evergreen Hawthorne. Orange berries in fall and winter. Open shrub. Small leaves .....		1.00	1.50	2.00	2.50	4.00
<i>Rhododendron punctatum</i> . Dwarf Rhododendron. Small shrub. Flowers pink in June. Easier to grow than others .....	1.00	1.50	2.00			
† <i>Rhododendron catawbiense</i> . Rhododendron. All rhododendron require woodland conditions to flourish .....						Car lots of collected plants only.
† <i>Rhododendron maximum</i> . Great Laurel. Large shrub. White flowers. Handsomest of all shrubs .....						Car lots of collected plants only.
<i>Thea sinensis</i> . Tea Plant. The real tea plant from which tea is made. A pretty evergreen shrub with white flowers .....	1.00	1.50	2.00	3.00	5.00	
<i>Rosmarinus officinalis</i> . Rosemary. Low, evergreen aromatic foliage. Usually classed as a perennial .....		Large Clumps				\$1.00 to \$2.00
<i>Viburnum tinus</i> . Luastinus. Pink buds in winter opening to white flowers in early spring. Not entirely hardy here .....	1.00	2.00	3.00			
† <i>Yucca filamentosa</i> . Bear Grass. Clump of flat sword shaped leaves. Tall stalk of white flowers in summer .....						Clumps ..... 25c to 50c
* <i>Yucca aloifolia</i> . Spanish Bayonet. Resembles a palm. Stiff bayonet like leaves. Stately stalks of white flowers .....	1.00	1.50	2.00			
* <i>Yucca treculeana</i> . Spanish Bayonet. Similar. Leaves concave and stiffer. Broader and less tall .....	1.00	1.50	2.50			

## CONIFEROUS EVERGREENS

These are the "Cedars," "Spruce Pines," etc. They are the richest and handsomest of ornaments. Nearly all require sunny situations.

Prices include digging with a ball of earth and wrapping in burlap.

	—SIZE IN FEET—					
	1-1½	1½-2	2-2½	2½-3	3-4	4-5
* <i>Cedrus Deodara</i> . Deodar Cedar. Conical spruce form. Light glaucous green feathery foliage. Rapid growth .....				2.50	3.00	4.00
* <i>Cedrus Libani</i> . Cedar of Lebanon. Similar but stiffer in growth. The tree used by Solomon in building his temple .....				2.50	3.00	4.00
<i>Cryptomeria japonica</i> . Cryptomeria. Rapid growth and odd appearance. Upright trunk with horizontal branches .....					3.00	4.00
* <i>Cupressus sempervirens royali</i> . Royal Italian Cypress. Very tall narrow column. Not entirely hardy in Piedmont belt .....				2.00	3.00	4.00
<i>Cupressus arizonica</i> . Tall narrow column but broader than above. Hardier .....				2.00	3.00	4.00
<i>Chamaecyparis Lawsoni</i> . Lawson's Cypress. Like the arbovitae in appearance. Stays bright green all winter .....			2.00	3.00	4.00	6.00
<i>Chamaecyparis Lawsoni azurea</i> . Foliage strikingly blue green and arranged in vertical planes like the biotas .....		2.00	3.00	4.00		
<i>Juniperus virginiana</i> . Red Cedar. The native cedar. Upright growth. For screens, naturalistic work, etc. ....			1.00	1.50	2.50	3.50
* <i>Juniperus virginiana glauca</i> . Blue Cedar. A variety with blue foliage. Holds its lower branches. Specimens only .....						
* <i>Juniperus communis</i> . Common or English Juniper. A very variable evergreen of which the following are varieties. The foliage of all is needle like and bluish green. We apply the term "communis" to all plants of the species which are upright and not exactly of the form of the named varieties .....				1.50	2.00	3.00

	SIZE IN FEET				
	1-1½	1½-2	2-2½	2½-3	3-4
*Juniperus communis hibernica. Irish Juniper. A narrow upright column. Dense foliage				1.50	2.00
*Juniperus communis Ashfordii. Ashford's Juniper. Our own introduction. More Broad and dense than the Irish Juniper					3.00
*Juniperus communis suecica. An upright column, but with tips of branches curving outward			2.00	2.50	3.50
Juniperus communis oblonga. Nepal's Juniper. Branches spreading, giving a vase form				1.50	2.00
Juniperus communis depressa (J. Canadensis). Spreading Juniper. Irregular in form. Usually hollow inverted cone. Sometimes almost a flat mat. Size refers to width	1.50	2.00	2.50	3.00	4.00
*Juniperus communis depressa aurea. Golden spreading Juniper. Same but with golden yellow tips to branches	1.50	2.00	2.50	3.00	4.00
*Juniperus chinensis inascula. Chinese Juniper. Cone shaped. Dense blue green foliage. Dwarf growth	1.50	2.50	3.50		8.00
Juniperus chinensis Pfitzeriana. Pfitzer's Juniper. Irregular spreading form. Pure green all winter. Priced by spread	2.00	2.50	3.00	4.00	5.00
Juniperus Sabina. Savin Juniper. Dwarf semi erect branches. Deep green color. Priced by spread not height	1.50	2.00	2.50		
Juniperus horizontalis. Foliage like the savin Juniper. Trails on the ground. Priced by spread	1.50	2.00	2.50		
*Picea excelsa. Norway Spruce. This is the "Christmas Tree" type of conifer and the only spruce or fir that will do well here	1.50	2.00	2.75	4.00	6.00
Pinus strobus. White Pine. Dark blue green needles. Transplants readily		1.50	2.00	2.50	
*Pinus nigra Austriaca. Austrian Pine. Resembles our native pine but more dense and handsomer in every way				3.50	5.00
*Pinus sylvestris. Scotch Pine. Bluish green color. Dense form. Handsomest of the pines as they grow here				3.50	5.00
Pinus monstana Mughus. Mugho Pine. A low spreading dwarf. Pure green color. Broader than high. Priced according to width	1.00	2.25	3.00	4.00	5.00
Retinispora. (Chamaecyparis). Rich and high class evergreens with great variety and beauty of foliage. Often called "cedars"					
Retinispora obtusa. Compact. Round. Flattened fern like foliage			3.00	4.00	5.50
Retinispora obtusa nana. A very slow growing dwarf. Irregular form. Curled dark green foliage					7.50
*Retinispora pisifera. Flattened fern like foliage	2.00	3.00	4.50	6.00	
*Retinispora pisifera aurea. Golden tipped	1.00	1.50	2.00	2.50	4.00
*Retinispora plumosa. Plume like foliage	1.00	1.50	2.00	2.50	4.00
*Retinispora plumosa aurea. Golden Tipped	1.00	1.50	2.00	2.50	4.00
*Retinispora squarrosa Veitchii. Feathery fluffy foliage of a light blue green color	1.00	1.50	2.00	2.50	4.00
Taxus cuspidata. Japanese Yew. Dark green foliage. Slow growth. Will grow in the shade	1.00	1.50	2.00	2.50	4.00
Thuja. Arborvitae. Most of the plants commonly called "cedars" are arborvitae or retinisporas. The arborvitae have leaves that appear to have been ironed	1.50	2.00	5.00		
*Thuja occidentalis. American Arborvitae. Upright columnar form. Fairly rapid growth					3.00
Thuja occidentalis. Elwangeriana. Dwarf. Two kinds of foliage	1.50	2.00			
Thuja occidentalis globosa. Perfect globe shape. Dwarf	1.50	2.50		7.50	
*Thuja occidentalis Reedii. Tall erect growth. Dark green prettily curled foliage				2.00	3.00
*Thuja orientalis (Biotæ) Chinese or Oriental Arborvitae. Foliage in vertical planes. Better color in winter than American			1.00	1.50	2.00
Thuja orientalis compacta. Dwarf compact form. Pure green	1.50	2.00	3.00	4.00	5.00
Thuja orientalis aurea compacta. Like above, but yellow green	1.50	2.00	3.00	4.00	5.00
Thuja orientalis aurea nana. Berckman's Golden Biotæ. Dwarf, compact. Tipped golden yellow	1.5	2.00	3.00	4.00	
*Thuja orientalis pyramidalis. Tall columnar form			1.50	2.00	3.00
*Thuja orientalis aurea conspicua. Tall columnar form. Dense foliage tipped golden yellow		1.50	2.00	3.00	4.00
Thuja orientalis filiformis. Foliage thread like				4.00	6.00
Thuja orientalis Hudginsi. Our own introduction. Foliage similar to that of the junipers. Color light blue green in summer, purplish in winter. Form rounded dwarf. Resembles Biotæ Rosedale but transplants easily	1.50	2.00	3.00		
*Tsuga canadensis. Hemlock. A beautiful dark green conical tree. Will grow in shade. Needs good conditions		1.00	1.50	2.50	4.00

## VINES

Vines go a long way to make a house look homelike. They are useful in covering walls, as screens on trellises, for clothing the porch and pergola, for covering old trees, and as ground covers on banks and in the shade where grass will not grow.

	2-Yr.	3-Yr.
Alkebia quinata. Akebia. A twining vine for pergola, porch or screen	\$0.50	\$0.75
Ampelopsis quinquefolia. Virginia creeper. Clings to walls, trees, etc. Dark red in autumn. Blue berries. Shade		.50
Ampelopsis tricuspidata. Boston Ivy. Best deciduous vine for growing on walls. Rapid growth. Shade		.50
Bignonia capreolata. Cross Vine. Evergreen, Trumpet shaped orange flowers		.75
Bignonia radicans. Trumpet Vine. Deciduous. Trumpet shaped orange red flowers in summer. Shade		.75
Clematis paniculata. White clematis. Cloud of little white star shaped fls. in late summer. For lattice work		.50
Clematis Jackmani. Purple Clematis. Large rich purple flowers in early summer, sometimes repeating		.75
Dolichos japonica. Kudzu Vine. Noted for its extremely rapid growth. For screens and quick effect		.50
Euonymus radicans. Climbing Euonymus. A clinging vine. Variable. Usually with small evergreen leaves. Slow growth		.75

Euonymous radicans veg etus. Larger leaves. More rapid growth. Orange red fruits	.75	
Euonymous radicans variegata. Small evergreen leaves edged white. Very slow	.50	.75
Hedera helix. English Ivy. The well known evergreen ivy. For walls, ground cover, flower boxes, etc.	.50	
†Lonicera japonica Japanese Honeysuckle. Blooms all spring and summer. Evergreen. For banks, waste places, etc.	.25	
Lonicera japonica aurea reticulata. Like above. Leaves netted and spotted, golden yellow	.50	.75
Lonicera periclymenum. Dutch Honeysuckle. Flowers reddish purple outside. Yellow inside. Blooms all summer	.50	.75
Lonicera sempervirens. Coral Honeysuckle. Flowers bright coral red outside. Yellow inside	.50	.75
Lonicera Heckrottii. Flowers purple outside. White inside	.50	.75
Jasminum officinalis. Jessamine. White star shaped fragrant flowers in summer	.50	.75
§Rosa Dorothy Perkins. Double Pink flowers. Rapid vigorous grower	.75	1.00
Rosa Crimson Rambler. Double Crimson flowers. Original Rambler	.75	
Rosa American Pillar. Flowers single in large clusters. Carmine Pink. White center, showy yellow stamens	.75	
Rosa Tauschendon. Flowers large, double deep pink to blush. No thorns	.75	
Rosa bracteata. McArteney Rose. Flowers like the Cherokee. Blooms all summer. Nearly evergreen foliage	.75	
Rosa laevigata. Cherokee Rose. Flowers large, single, white, showing yellow stamens. Foliage evergreen	.75	
Rosa Wichuriana. Flowers single, White. Lies flat on the ground. Used as ground cover	.50	
†Vincea Minor. Small Periwinkle. An evergreen ground cover for shady places. Blue flowers in spring	.25	
Vincea major. Large periwinkle. Similar but with larger leaves	.50	
Wistaria chinensis. Beautiful drooping racemes of lavender flowers. Rapid growth. Shade	.50	.75
Wistaria chinensis alba. White Wistaria. White flowers	.50	.75
Wistaria multi-juga. Flowers in very long loose racemes	.50	.75

#### MISCELLANEOUS

Rosa Baby Ramblers. The popular dwarf everblooming roses with clusters of flowers like the ramblers All	.50	.75
Madam L'evasseur. The original baby Rambler flowers crimson		
Annie Muller. Flowers pink in large clusters resembling small Killarneys.		
Marie Pavie. Flowers blush or white. Foliage the most luxuriant. Makes the best hedge.		

#### ORNAMENTAL GRASSES

Arundo Donax. Giant Reed. 10 to 15 ft. high. Long broad leaves. Plumes reddish brown changing to silvery grey. Large clumps	.50	
Bambusa metake. (Arundinaria japonica). Evergreen Bamboo. Grows easily and spreads rapidly. Evergreen. Clumps	1.00	
§Eulalia Zebrina. Leaves banded crosswise with yellow. Large clumps	.50	
§Eulalia variegata. Leaves stripped lengthwise with yellow. Large clumps	.50	
§Eulalia univittata. Narrow dark green leaves. Large clumps	.50	
Gynerium argenteum. Pampas Grass. Narrow dark green leaves. Fine silvery plumes. Clumps	.75 to 2.00	
Phalaris arundinacea variegata. Ribbon Grass. A much smaller grass. Leaves stripped green and white. Clumps	.50	
Santolina Chamaecyparissus. An herb that looks like an evergreen "cedar." Low spreading. Blue green color. Large clumps	.75 to 2.00	
Peonia. Peonies in variety. The popular perennial with large white, pink or crimson flowers. Partial shade. 2-year clumps	.75	

#### HEDGES.

Ligustrum sinense. Amoor River Privet. The best evergreen hedge plant for the south 12-13 inch, \$5.00 per 100. 18-24 inch, \$7.50 per 100. 2-2½ foot, \$10.00 per 100.
